

Thank you for using our Extended Virtual Work Experience Programme with your pupils.

Our new programme is totally online and available 24-7. There is no requirement for individual pupil registration as a simple password gains access to all the materials. Nothing is stored on our server except general usage statistics. All the worksheets and activities are downloadable so pupils can store them in their online school folders or print them out if your school prefers a manual careers pack.

It has been designed for schools to use as they wish. Either as part of Work Experience Week or spread across Careers lessons throughout the year. Pupils can even access the resource from home if required.

Go to www.vwes.co.uk

and Log In

This opens the Access Page. Please Click Option Two (you will need a password)

This opens the Extended Virtual Work Experience Menu

Go to the First Link

This opens the Video Menu

Always click on a Career heading to access the Virtual Work Experience Videos and Worksheets
 Each category will take around 45-60 min. You may do as many as you wish.
 Be aware that no worksheets are saved onto our system. Please save them to your school folder.
 If you are unsure what order to search, see the [FAQ](#)

Pupils can select their career video or videos to watch.

There are no limits on how many they can access.

After watching the video or videos, pupils have access to three linked websites containing further information related to that career. These are in the column immediately to the right of the last video they saw. We advise they check out all three sites as they will need this information to complete the subsequent task and we are encouraging research skills throughout this programme.

They then download a Virtual WEX Worksheet

This asks for feedback on the video/s and subsidiary questions to ensure they have done their research and clearly understand the qualification and skills requirements for that role.

They are required to complete the entire sheet. If they do not know the answers, they need to go back and complete their research.

Each Video/Worksheet activity should take around 40—50mins to complete in full.

Worksheets must be saved to the school system or printed out if preferred.

We do not save any pupil's work on our system.

Pupils can then move on to the Extended Virtual Work Experience section

These experiences are between two and eight hours long (as marked)

Full instructions are clearly accessible on each video link.

Pupils will receive a Certificate of Completion for each activity following assessment

Pupils can also access the last section, which contains links to Virtual Company Tours and Virtual School Trips

Completing this programme will give pupils as much understanding as possible of the World of Work without being able to physically take part in work experience.

Further Option

Virtual Careers Programme

This is a 12-step Virtual Careers Programme that enables pupils to research jobs, complete application forms, take part in a written Practice Interview and research post-16 and post-18 study and apprenticeship options.

There is also a section for GCSE Revision Quizzes, Personal Finance Videos and Activities, plus pastoral support links such as Mental health, Dealing with Exam Stress, Bullying, Staying Safe Online and much more.

Go to our website for full details or email lorenzo@vwes.co.uk
