NAME: \_\_\_\_\_\_
TUTOR GROUP: \_\_\_\_\_

1		Name <b>three</b> of the <b>formal elements</b> that are the key features of practical art.	Line, Tone, Colour, Texture, Pattern, Shape, Form
2		What word describes how <b>light or dark</b> an image is? This word can be used to describe colour as well as black and white images.	Tone (or Value)
3		What word describes the <b>difference</b> between the lightest and darkest tone within an image?	Contrast (high or low)
4		How do you create <b>texture</b> in a 3D or relief sculpture?	By raising or disrupting the surface
5		Which <b>two formal elements</b> can be captured through the use of <b>mark-making</b> in drawing?	Tone & Texture
6		What three <b>transformations</b> can you use to create a regular <b>pattern</b> ?	Repeat, Rotate, Reflect
7	nts	What is the repeated element of a pattern called?	Motif
8	Elements	What <b>formal element</b> do you use in a drawing to define a <b>shape</b> ?	Line
9	ıal El	How is a <b>form</b> different from a <b>shape</b> ?	A Form is 3D
10	Formal	How can you represent <b>form</b> in a <b>pencil</b> drawing?	Pencil shading to create Tone
11		How can you represent <b>form</b> when drawing in <b>pen</b> ?	Mark-Making using pen line
12		How do you describe the <b>relative size</b> of elements within a convincing image, for example a portrait or figure drawing?	Proportion
13		When you are <b>comparing</b> the size of an object to things around it, what word do you use?	Scale
14		How do you describe the <b>shape of the spaces</b> around an object in an image?	Negative Space
15		Where do all <b>perspective lines</b> (or orthogonals) meet?	At the Vanishing Point
16		What does drawing in perspective mean?	Using a set of rules to draw in 3D
17		In a perspective drawing the vanishing point is placed on what line?	Horizon
		in a perspective drawing the <b>vanishing point</b> is placed on what line:	HOHZOH
18		What is a definition of the word: <b>composition</b> ?	Where things are placed (within the picture frame)
18			Where things are placed (within the picture
		What is a definition of the word: <b>composition</b> ?  Name a rule that artists use to improve composition, by placing	Where things are placed (within the picture frame)
19	position	What is a definition of the word: <b>composition</b> ?  Name a rule that artists use to improve composition, by placing elements <b>off-centre</b> . Why are primary colours called 'primary'?  What two colours are mixed to create green?  What colour is the complementary opposite of green?  What colour is created by mixing red and yellow?	Where things are placed (within the picture frame) Rule of Thirds  Areas of Interest On the Rule of Thirds  Lead-In Lines  Road, wall, river, line of trees, etc  Symmetrical Foreground, Mid-ground, Background  Red, Yellow & Blue These are the first colours and create all other colours  Yellow & Blue  Red  Orange

33		What do you call colours that are <b>next to each other</b> on the colour wheel?	Harmonious Colours
34		What is the effect of placing <b>harmonious</b> colours together?	The colours blend and 'go together'
35		What do you call colours that are <b>opposite</b> each other on the colour wheel?	Complementary Colours
36		What is the effect of placing <b>complementary</b> colours together?	The colours clash or vibrate
37		In colour theory, what does the word <b>hue</b> refer to?	The name of the colour (red, blue, yellow, etc)
38		In colour theory, what does the word <b>saturation</b> mean?	The intensity of the colour hue
39		What happens if you <b>reduce</b> the saturation of a colour?	Colours become more grey and eventually black & white
40		In painting, adding <b>white</b> to a colour creates a paler colour called what?	Tint
41		When you add <b>black</b> to a colour it creates a darker colour called what?	Shade
42		Name two colours that are described as <b>warm</b> .	Red, orange
43		Name two colours that are described as <b>cool</b> .	Blue, purple
44		In a landscape image, <b>where</b> do you place these cool colours?	In the background
45		Why are warmer colours placed in the <b>foreground</b> of a landscape image?	Warm colours appear closer
46		Give a <b>colour symbolism</b> or association for the colour red.	Love, anger, danger
47		Why is <b>image analysis</b> important in your studies in Art?	To learn about ideas, materials & techniques. To influence and inspire your own work.
48	ılysis	What are the three stages of the <b>image analysis process</b> ?	Describe, Analyse, Evaluate
49	Image Analysis	List three key aspects of an image that you would <b>describe</b> in your image analysis.	Composition, formal elements, subject matter, materials & techniques
50	Ē	List further aspects of the artist's work that you would <b>analyse</b> .	Mood, ideas or message, visual impact, the artist's intention, visual connections or associations

		AO1-4	Key Skills:	Assessed Work:	
1		AO1	Develop Ideas	You will be <b>Developing</b> your project ideas through: Mind Maps and Experimentation. You also need to show how you have learnt from the work of other artists through your <b>Artist Research</b> and <b>Image Analysis</b>	
2			Critical Analysis		
3			Cultural Understanding	written work. Your practical <b>Artist Response</b> work must show that you understand the key themes, techniques and ideas in your chosen artists' work, and have applied this to your own project.	
4	tives	AO2	Refining Ideas	You will be <b>Experimenting</b> with Materials and Techniques to show your	
5	Assessment Objectives		Materials & Techniques	technical skills. You also need to show how this experimenting helps you to <b>Refine</b> your practical skills as well as your project ideas. Your project needs to build through a series of stages, with work becoming more refined as you approach the Final Outcome.	
6	ssess	AO3	Recording Ideas	You need to show skill in the way you <b>Record Your Ideas</b> through your practical <b>Art Skills</b> (drawing, painting, photography, etc). You need to explain your ideas and your process both visually, and through <b>Annotation</b> . Your <b>Presentation</b> must also demonstrate your artistic skills.	
7	<b>■</b> <		Reviewing Progress		
8		AO4	Presenting Final Ideas	Your project needs to lead to a <b>Final Outcome</b> that clearly links with all stages of the project, showing how you have realised your intentions. The quality of the final outcome must show the very best of your <b>Recording Skills</b> . You need to show clear links with the <b>Artists' Work</b> that you have studied, and show how this has influenced our work.	
9			Realising Intentions		

		Project Stage:	What you need to show in your work:
1		Mind Map	A creative visual diagram, to explore ideas around a theme, through words and images.
2		Visual Recording	Recording your ideas and observations through drawing, painting, photography, etc.
3		Annotation	Written notes to explain your ideas and techniques, and to review your progress.
4		Experimentation	Trying out ideas and practical techniques to find the best fit for your project.
5	ges	Artist Research	Written research into an artist's background and their work.
6	Projects Stages	Image Analysis	Detailed written observations and personal judgements about individual pieces of works by an artist.
7	Proj	Artist Response	Your own practical work, made in the style of an artist, showing your understanding of their ideas and techniques.
8		Development	To expand and extend your project work, by experimenting with different techniques and design ideas.
9		Refinement	To improve a piece of work through practise and re-working, to show the best of your skills.
1 0		Final Outcome	The final piece of work in a project, that brings together all your research, techniques, creativity and recording skills.

1		What is the original (Ancient Greek) meaning of the word <b>photo-graphy</b> ?	Drawing with Light
2		What are the key skills and understanding required to create <b>good photography</b> ?	Composition – Tonal Contrast – Viewpoint – Focus
3		What word describes the <b>difference</b> between the lightest and darkest tone within an image?	Contrast (high or low)
4		Give a definition of the term <b>Composition</b> .	Where things are placed.
5		List examples of <b>Elements of Composition</b> .	Rule of Thirds, Lead-In Lines, Areas of Interest, Symmetry, etc.
6		How do you describe the <b>height and angle</b> of the photographer's view, creating different perspectives and impact within an image?	Viewpoint or Camera Angle.
7		What is the word we use to describe the <b>balance of light</b> that reaches the camera sensor (or film)? This is controlled by the aperture size and shutter speed.	Exposure
8		What camera setting do you choose for <b>Shutter Speed Priority</b> ?	TV
9	уhс	What does <b>Shutter Speed Priority</b> mean?	You can control the Shutter Speed, while the camera adjusts other settings to capture correct exposure.
10	ogra	What shutter speed captures <b>freeze frame</b> ?	Fast Shutter Speed
11	SE Photography	What is the effect of using a slow shutter speed to photograph a moving subject?	Motion Blur
12	GCSE	What shutter speed did you use to capture light trails?	Slow Shutter Speed – 3 seconds.
13		What is the slowest shutter speed that you can safely use <b>without a tripod</b> ?	1/60
14		How do you use lighting to create <b>multiple images</b> within a single shot, using slow shutter speed?	Use bursts of light to illuminate the subject multiple times, while the shutter remains open.
15		What is the name of the <b>opening</b> in the camera lens that lets in light, controlled by a diaphragm?	Aperture
16		What camera setting do you choose for <b>Aperture Priority</b> ?	AV
17		Give an F-stop that creates <b>short depth of field</b> .	F2.8, F4
18		What <b>size of aperture</b> does this F-stop create?	Large Aperture
19		Describe the effects of <b>short depth of field</b> .	The subject of the photo is in focus, while the background is blurred.
20		What <b>camera focus setting</b> would you use when capturing short depth of field? <b>Why</b> ?	Manual Focus, so you can accurately control the exact area of focus.
21		What aperture size do we usually use to capture landscapes?	Small Aperture, eg F16
22		What <b>effect</b> does this aperture size create?	Long Depth of Field – everything is in focus.
